

**§ 600.905**

**Subpart K—EFH Coordination,  
Consultation, and Rec-  
ommendations**

SOURCE: 67 FR 2376, Jan. 17, 2002, unless otherwise noted.

**§ 600.905 Purpose, scope, and NMFS/  
Council cooperation.**

(a) *Purpose.* These procedures address the coordination, consultation, and recommendation requirements of sections 305(b)(1)(D) and 305(b)(2–4) of the Magnuson-Stevens Act. The purpose of these procedures is to promote the protection of EFH in the review of Federal and state actions that may adversely affect EFH.

(b) *Scope.* Section 305(b)(1)(D) of the Magnuson-Stevens Act requires the Secretary to coordinate with, and provide information to, other Federal agencies regarding the conservation and enhancement of EFH. Section 305(b)(2) requires all Federal agencies to consult with the Secretary on all actions or proposed actions authorized, funded, or undertaken by the agency that may adversely affect EFH. Sections 305(b)(3) and (4) direct the Secretary and the Councils to provide comments and EFH Conservation Recommendations to Federal or state agencies on actions that affect EFH. Such recommendations may include measures to avoid, minimize, mitigate, or otherwise offset adverse effects on EFH resulting from actions or proposed actions authorized, funded, or undertaken by that agency. Section 305(b)(4)(B) requires Federal agencies to respond in writing to such comments. The following procedures for coordination, consultation, and recommendations allow all parties involved to understand and implement the requirements of the Magnuson-Stevens Act.

(c) *Cooperation between Councils and NMFS.* The Councils and NMFS should cooperate closely to identify actions that may adversely affect EFH, to develop comments and EFH Conservation Recommendations to Federal and state agencies, and to provide EFH information to Federal and state agencies. NMFS will work with each Council to share information and to coordinate Council and NMFS comments and rec-

ommendations on actions that may adversely affect EFH. However, NMFS and the Councils also have the authority to act independently.

**§ 600.910 Definitions and word usage.**

(a) *Definitions.* In addition to the definitions in the Magnuson-Stevens Act and § 600.10, the terms in this subpart have the following meanings:

*Adverse effect* means any impact that reduces quality and/or quantity of EFH. Adverse effects may include direct or indirect physical, chemical, or biological alterations of the waters or substrate and loss of, or injury to, benthic organisms, prey species and their habitat, and other ecosystem components, if such modifications reduce the quality and/or quantity of EFH. Adverse effects to EFH may result from actions occurring within EFH or outside of EFH and may include site-specific or habitat-wide impacts, including individual, cumulative, or synergistic consequences of actions.

*Anadromous fishery resource under Council authority* means an anadromous species managed under an FMP.

*Federal action* means any action authorized, funded, or undertaken, or proposed to be authorized, funded, or undertaken by a Federal agency.

*Habitat areas of particular concern* means those areas of EFH identified pursuant to § 600.815(a)(8).

*State action* means any action authorized, funded, or undertaken, or proposed to be authorized, funded, or undertaken by a state agency.

(b) *Word usage.* The terms “must”, “shall”, “should”, “may”, “may not”, “will”, “could”, and “can” are used in the same manner as in § 600.305(c).

**§ 600.915 Coordination for the con-  
servation and enhancement of EFH.**

To further the conservation and enhancement of EFH in accordance with section 305(b)(1)(D) of the Magnuson-Stevens Act, NMFS will compile and make available to other Federal and state agencies, and the general public, information on the locations of EFH, including maps and/or narrative descriptions. NMFS will also provide information on ways to improve ongoing

Federal operations to promote the conservation and enhancement of EFH. Federal and state agencies empowered to authorize, fund, or undertake actions that may adversely affect EFH are encouraged to contact NMFS and the Councils to become familiar with areas designated as EFH, potential threats to EFH, and opportunities to promote the conservation and enhancement of EFH.

**§ 600.920 Federal agency consultation with the Secretary.**

(a) *Consultation generally*—(1) *Actions requiring consultation.* Pursuant to section 305(b)(2) of the Magnuson-Stevens Act, Federal agencies must consult with NMFS regarding any of their actions authorized, funded, or undertaken, or proposed to be authorized, funded, or undertaken that may adversely affect EFH. EFH consultation is not required for actions that were completed prior to the approval of EFH designations by the Secretary, e.g., issued permits. Consultation is required for renewals, reviews, or substantial revisions of actions if the renewal, review, or revision may adversely affect EFH. Consultation on Federal programs delegated to non-Federal entities is required at the time of delegation, review, and renewal of the delegation. EFH consultation is required for any Federal funding of actions that may adversely affect EFH. NMFS and Federal agencies responsible for funding actions that may adversely affect EFH should consult on a programmatic level under paragraph (j) of this section, if appropriate, with respect to these actions. Consultation is required for emergency Federal actions that may adversely affect EFH, such as hazardous material clean-up, response to natural disasters, or actions to protect public safety. Federal agencies should contact NMFS early in emergency response planning, but may consult after-the-fact if consultation on an expedited basis is not practicable before taking the action.

(2) *Approaches for conducting consultation.* Federal agencies may use one of the five approaches described in paragraphs (f) through (j) of this section to fulfill the EFH consultation requirements. The selection of a particular ap-

proach for handling EFH consultation depends on the nature and scope of the actions that may adversely affect EFH. Federal agencies should use the most efficient approach for EFH consultation that is appropriate for a given action or actions. The five approaches are: use of existing environmental review procedures, General Concurrence, abbreviated consultation, expanded consultation, and programmatic consultation.

(3) *Early notification and coordination.* The Federal agency should notify NMFS in writing as early as practicable regarding actions that may adversely affect EFH. Notification will facilitate discussion of measures to conserve EFH. Such early coordination should occur during pre-application planning for projects subject to a Federal permit or license and during preliminary planning for projects to be funded or undertaken directly by a Federal agency.

(b) *Designation of lead agency.* If more than one Federal agency is responsible for a Federal action, the consultation requirements of sections 305(b)(2) through (4) of the Magnuson-Stevens Act may be fulfilled through a lead agency. The lead agency should notify NMFS in writing that it is representing one or more additional agencies. Alternatively, if one Federal agency has completed an EFH consultation for an action and another Federal agency acts separately to authorize, fund, or undertake the same activity (such as issuing a permit for an activity that was funded via a separate Federal action), the completed EFH consultation may suffice for both Federal actions if it adequately addresses the adverse effects of the actions on EFH. Federal agencies may need to consult with NMFS separately if, for example, only one of the agencies has the authority to implement measures necessary to minimize adverse effects on EFH and that agency does not act as the lead agency.

(c) *Designation of non-Federal representative.* A Federal agency may designate a non-Federal representative to conduct an EFH consultation by giving written notice of such designation to NMFS. If a non-Federal representative
